

## Hemp-Derived CBD

- Products:** Crude CBD Extract, CBD Distillate, Full Spectrum CBD Oil, CBD
- Isolate Facilities:** GPP
- Source:** High quality, CBD oil/extracts produced from identifiable strains of cultivated conventional and organic\* hemp biomass.

**C**annabidiol (CBD) has been celebrated for far reaching medical applications. In addition, CBD is non psychoactive making it a safe and effective option for patients who may be concerned about the mind-altering effects of other cannabinoids such as THC.

**Applications:** CBD oils have been shown to offer a range of health applications in dealing with anxiety, depression, inflammation, acne, sleep disorders, heart disease and pain management.

### The Blue Sky Advantage

*CBD at a Lower Cost to Our Customers, and To The Planet*  
Blue Sky is proud to offer the highest quality CBD extracts at amongst the lowest prices. We do it through whole plant utilization. While others focus solely on the flower for CBD extracts - our first-of-its-kind, end-to-end system

allows us to harness the full value of the grain for super-foods, the stalks for a wide variety of sustainable industrial products and the flower for CBD extraction. And, while other producers grow indoors (big CO<sub>2</sub> footprint) or grow outdoors and dry with heat (even bigger CO<sub>2</sub> footprint), we use 100% sunshine to dry our crops - proudly supplying CBD with a zero carbon footprint.

Our state of the art facility was designed specifically for industrial hemp extraction. Combine this with world-class ag-tech, deep relationships with the best growers, adherence to the most rigorous QA standards in the business, and full seed-to-sale traceability, and you get quality extracts at amongst the lowest prices.

Products	CBD Potency	THC Potency
<b>Crude CBD Extract</b>	>50%	< 3%
<b>CBD Distillate</b>	>80%	< 3%
<b>Isolate</b>	>99.5%	0%
